THE OCEANIC STEAMSHIP ALAMEDA.

The first whistle announcing the approach of the Oceanic S. S. Alameda blew at quarter to 7 o'clock this morning. She reports having sailed from San Francisco on the 9th instant at 4:10 P. M. and discharged pilot at 6:15 P. M. For the first forty hours, a heavy westerly gale was experienced, followed by fine weather and moderate trade winds. She arrived at 8 o'clock this morning, having made the passage in 6 days, 16 hours, and 7 minutes. She proceeds to the Colonies at 5 o'clock this afternoon.

MISS AMY SHERWIN COMING.

Mr. Hugo Gorlitz, Manager for Miss Amy Sherwin, came here by the Alameda this morning, and will proceed to Australia by the same vessel this evening, there to make arrangements for the public appearance of Miss Sherwin in her professional role, as a vocalist. This gifted "Prima Donna Soprano" will follow by the next steamer, a month hence. Mr. Gorlitz has made arrangements for one concert at Honolulu, en route. Should the steamer remain here during the evening, the concert will be given at the usual hour in the Opera House; but if not, it will come off at the same place, during the day, while the vessel is in port. Messrs. J. E. Brown & Co. are entrusted with the business management here, and will shortly open the box plan of the Opera House for the occasion. Miss Amy Sherwin is a young Australian Soprano, who has created an extremely favorable impression in Great Britain and the United States, the press of both countries being eloquent in her praise, and representing her as an artist of the "highest standing." The young lady will be accompanied by a violinist of distinction.

FOREIGN NEWS.

The Oceanic steamship Alameda, Captain Morse, arrived at 8 o'clock this morning, bringing dates to the 9th instant. The following is a summary of the latest news:—

James G. Blaine is reported to be unwell. A private telegram from Blaine's physician, is as follows: "Blaine is doing well. He has only a slight fever. His pulse is good, 80 per minute, and respiration 15." A telegram from Detroit states: "It now seems that the prohibitory amendment has been defeated by 3,800 votes. Several towns are yet to be heard from, but they will not materially change the result."

Professor F. L. Capen of Boston, who predicted the Charleston earthquake of last year and has accurately foretold other seismic disturbances, sends the following card to the *Republican*: "I hasten to give the next strong earthquake period, April 7th to 17th. The critical days are from the 10th to the 15th. Its forces are rather intense and concentrated, i. e., grouped closely together, but perhaps not quite so severe as some that have occurred within the past years. Ever and truly yours," F. L. CAPEN.

The Canadian cruiser Vigilant has fired upon an American fishing vessel.

The steam whaler Eagle with a crew of 250 men, was lost off Bonavesta Bay with all hands.

April 7th, John W. Davis (Dem.) was elected Governor of Rhode Island by 973 majority.

The challenge issued by the Royal Clyde Club to race the yacht Thistle for the America cup has been accepted.

The Hotel del Monte was burned to the ground on the 1st April. There were about 350 guests in the hotel and about a score as was witnessed when the alarm was given will never be forgotten by those present. It is estimated that \$500,000 will not cover the loss, as the insurance was very small. It is estimated that the personal losses of guests aggregate \$150,000—an average loss of \$500 to each person.

Providence, R. I., April 7th.—Commodore Charles Green, United States Navy, retired, died suddenly

this afternoon in this city, aged 73 years.

The Secretary of the Treasury has decided that national bank depositors are not required to redeem trade dollars under the recent Act.

EUROPEAN.

A gigantic naphtha fountain burst at Baku, Russia. Oil, sand and enormous stones were carried to a height of 350 feet.

Mr. Hyne, an English civil engineer, has gone to Cabul, at the request of the Ameer, to consult with him about the construction of a railway from Cabul to Herat.

The Prussian Home Minister announces that according to a judicial decision persons who have acquired citizenship in the United States and have lived five years there have lost their German citizenship and, therefore, can be expelled from Germany. From this there is no appeal. German citizenship cannot be regained by persons who have lost it by having become citizens of foreign States.

The ex-Empress Eugenie proposes to make a tour of the United States, and seek health by a sojourn in California.

London, April 9.—It is no longer possible to overlook the fact that in the war scare which has been reviving for days past, foreign correspondents have been reporting occurrences and opinions unimportant separately, but which taken together are creating fresh alarm here. The explosion of Antoine, the tearing up of the Imperial flag by Alsatian recruits and the imprisonment of French sympathizers has caused a strong feeling.

The Paris correspondent of the *Standard* telegraphs this morning that the fear in well-informed quarters there is, that Bismarck, having made sure that Russia can't move for the present thinks it better for Germany to fight now than later.

Attention has been drawn to this condition of affairs by the fact that the Devonport Dock-yard authorities received orders that three of the six fastest and most powerful torpedo cruisers building for the Government, were to be got ready for sea with all dispatch, without waiting final trials of their machinery.

It is freely stated in Devonport that this order has been given in consequence of the unsatisfactory and uncertain aspect of foreign affairs.
